

# Certified Incident Handling Engineer

The Certified Incident Handling Engineer course, C)IHE, is designed to help Incident Handlers, System Administrators, and Security Engineers understand how to plan, create and utilize their systems. Prevent, detect and respond to attacks through the use of hands-on labs in our exclusive Cyber Range. With this in-depth training, you will learn to develop start to finish processes for establishing your Incident Handling team, strategizing for each type of attack, recovering from attacks and much more.

## Annual Salary Potential

\$81,812 AVG/year

Includes Access to our Cyber Range

<p>Upon completion of the <b>Certified Incident Handling Engineer</b> course, students will be able to confidently undertake the C)IHE certification examination.</p>	<p>The <b>Certified Incident Handling Engineer</b> exam is taken online through Mile2's Assessment and Certification System ("MACS"), which is accessible on your mile2.com account. The exam will take 2 hours and consist of 100 multiple choice questions.</p>	<ul style="list-style-type: none"> <li>+ Do I have to purchase a course to buy a certification exam? &gt;</li> <li>+ Do all Mile2 courses map to a role-based career path? &gt;</li> <li>+ What Mile2 Courses/Tracks are Available? &gt;</li> </ul>

## Re-Certification Requirements

All Mile2 certifications will be awarded a 3-year expiration date.

### There are two requirements to maintain Mile2 certification:

- 1) Pass the most current version of the exam for your respective existing certification
- 2) Earn 20 CEUs (*Continuing Education Units*) per year. You may submit your CEUs in your Mile2 inbox. These CEUs must fall under "Quality Continuing Educational Activities).

Visit our [certification renewal page](#) for more information.
