Because Mile2 utilizes a Learning Management System, when a user accesses and utilizes course material, all of their activity is logged. This activity is stored in perpetuity and is used to review customer accounts when the need arises. This information is kept private and is not shared with outside parties except under the following circumstances:

- When the user is a student at a college that is utilizing Mile2 courseware as a part of their class, that student's activity can be viewed by the professor that is facilitating the class.
- When the user is taking the course through a government organization, the user's activity can be viewed by the commanding officer or facilitator of the program utilizing and paying for the course.
- When the user is taking a Mile2 course is an employee of an organization that has paid for the course on behalf of the user, the user's information may be shared with their manager.
